

1. Alarm System (Simply Safe)

- **System:** Simply Safe
- **Code:** 1236
- **Usage:**
 - **Disarm:** Enter 1236 and press "Off".
 - **Arm (Leaving):** Press "Away" button.
- **Speaker:** Speaker 1
 - "the code for the alarm thing the simply safe is one, two, three, six, and then you press off... when you're leaving, you'll just press away, then when you've got the building two, three, six off."
- **Visual Reference:** White SimpliSafe keypad (Images 24 & 26)

2. Production Supply Closet

- **Code:** 1248
- **Speaker:** Speaker 1
 - "One, two, four, eight for the production supply closet... production supply is one two, four eight."
- **Key:** Possibly needed, status uncertain due to knob change.
- **Speaker:** Speaker 1
 - "This one might be like a different key than don't know if I have that key, because we changed the knob on that."

3. Mailbox Area (Street Side)

- **Mailbox Location:** Street side of the building, outside the store.
 - "mailing address, like the mail there used to be a mailbox right outside of the store".
 - "mailbox right outside of the store and that's what all I mailbox too."
- **Mailbox Keys:** Keys shown, unclear if for current mailbox.
- **Speaker:** Speaker 1
 - "I think these keys are for the m mailbox, but we don't really use this mailbox on the side anymore. I still was it for this lock? possibly. No. not for this lock."
- **Visual References:**
 - Black mailbox on gate/fence (Image 8)
 - Mailbox on door frame (Image 7)
 - **Unclear which mailbox is currently in use.**

4. Loading Dock Street Access Gate

- **Gate Status:** Currently unlocked.
- **Speaker:** Speaker 1

- "this gate isn't locked right now. Or this okay. Okay, good good to know, because, like, this is an easy kind of entrance."
- **Key:** Key present near the lock, but not explicitly used.
- **Speaker:** Speaker 1
 - "There's a key right there for this luck. Which is right here."
- **Visual Reference:** Lock on gate, key on gate frame (Image 9)

5. Generator Room Access

- **Access from Stage - Code:** 1986
- **Speaker:** Speaker 1
 - "This one is 1986. 1986, yeah, 1986 to get in the generator room. So 1986 to get into the generator room from the stage."
- **Access from PO Side - Code:** 8421
- **Speaker:** Speaker 1 (Correction: Speaker meant 8421 not 8848421)
 - "to get into the generator room from the PO side was eight eight four eight four two one."
- **Power to Stage - Switches (Inside Generator Room):**
 - **Turn ON:**
 1. Switch 1: Always ON.
 2. Switch 2: Turn ON.
 3. Switch 3 (Sign Switch): Turn ON.
 - **Turn OFF:**
 1. Switch 3 (Sign Switch): Turn OFF.
 2. Switch 2: Turn OFF.
 3. Switch 1: Always ON.
- **Speaker:** Speaker 1
 - "There's three switches, it's one, two, three. That's always on. So, two, there's actually a close to no, it says one, but so that's always on, that you go this? I then you the sign switch. And now powers in stage... turn it off, it's just the opposite. so you go three first, so you. and then you go two. and that's off, because that's always off."
- **Visual References:**
 - Metal electrical box with red switch (Image 4)
 - Interior of electrical box with switches (Image 5)

6. Roll-Up Door & Parking Lot Gate

- **Roll-Up Door Operation:** Manual, "just rolls".
- **Outdoor Plug/Parking Lot Gate Code:** 7856 or 7586
- **Speaker:** Speaker 1
 - "This one is same as the parking lot, seven eight five six. Both roll the Yates outside and the same code."
- **Visual References:**

- Roll-up door (Image 10)
- Combination lock on gate chain (Image 33) - Likely Parking Lot Gate

7. Gear Room

- **Access Status:** Doors currently unlocked and open.
 - "These doors are just always open, right?"
- **Keys:** Unknown, possibly lost.
 - "I don't know what the keys are, just kept their own them off."
- **Location:** Two specific doors inside the building.
 - "when you're saying gear room, you're talking about these ones. these two, okay."
- **Contents:** Camera and audio equipment storage.
 - "It's just it's just camera audio stuff. Oh, okay. so all the stuff lives over here, all the camera stuff lives over here. This is all camera and audio, that's all genie."

8. Office Access

- **Access from Stage - Code:** 8421
- **Speaker:** Speaker 1
 - "842 one for the office. The office from the stage going to the office is 842 one 8421."
- **Access from Main Hallway - Code:** 8421
- **Speaker:** Speaker 1
 - "from the main hallway to the office is also eight four two one for the code."
- **Code Consistency:** Likely code for most interior doors.
 - "I think that's every door in the code."
- **Visual References:** Door handle with keypad (Images 11, 16, 22)

9. Photo Studio / Multipurpose Room

- **Concept:** Room to be converted into:
 - Photo studio
 - Multipurpose space
 - Tabletop food shoots
 - Auditions
 - Coworking
- **Features:** Seamless backdrops with multiple rolls.
- **Speaker:** Speaker 1
 - "The idea is that this becomes your photo studio... Especially because this is bare, it's so easy to like photo studio and you know the seamless ones where you can have multiple roles and kind of rotate out the rolls."

10. Quiet Room / Movement Room / Pigeon Room

- **Quiet Room Concept:** For meditation, reading, and breaks.
- **Movement Room Concept:** Potentially outdoor space near stage for exercise.
- **Pigeon Room:** Current storage, previously found dead pigeon.
 - "It's called the pigeon room because before I was here they found it dead pigeon in there. we just use it for storage, but it's just kind of like an outdoor on its face."
 - "just kind of like an outdoor on its face."
- **Visual Reference:** Grated window (Image 31) - Possibly Pigeon Room view.

11. Workshop Room

- **Concept:** Room for workshops, education, presentations, and classroom-style activities.
- **Equipment:**
 - Powerful computers for rendering & software access.
 - Projector for presentations.
 - Potentially TVs for additional displays.
- **Speaker:** Speaker 1
 - "This is where if the rec room is over there, this is the quiet one. Yeah, you're working in J, you're not talking to each other as much, but it also is where there's workshops and things like that... This one it needs a projector to kind of finish up this stuff so that everyone can see."
- **Visual Reference:** Interior space (Image 32) - Possibly Workshop Room.

12. Wi-Fi Networks

- **Networks:**
 - "pollution office"
 - "pollution mainstage"
- **Setup:** Potentially one network split into two Wi-Fis, using ASUS extenders.
- **Extenders:** ASUS brand, possibly mesh network.
- **Passwords:** (See Visual References)
 - "pollution main stage" password: **boyleheights**
 - "Pollution Office" password: **1539grandevista**
- **Speedtest:** Performed during walkthrough (Images 1, 2, 3, 4).
- **Visual References:**
 - ASUS Wi-Fi extender (Image 34)
 - "pollution main stage" Wi-Fi sign (Image 29)
 - "Pollution Office" Wi-Fi sign (Image 30)

13. Outside Gate

- **Code:** 0228
- **Speaker:** Speaker 1

- "The outside gate is 0228... 0228. for the outside"
- **Visual References:**
 - Hand operating combination lock (Image 35)
 - Gate (Image 36)
 - Locked gate (Image 37)

14. Container Lock (Bottom Lock)

- **Code:** 2350
- **Location:** Bottom lock of shipping container.
- **Speaker:** Speaker 1
 - "Two50 on the bottom lock of the container."
- **Visual Reference:** Combination lock on chain (Image 38) - Possibly Container Lock

15. General Keys

- **Organization:** May be disorganized, purpose unclear for some.
- **Speaker:** Speaker 1
 - "these keys don't know what these keys are."
 - "make sure how my keys are got like kid."

16. Painting & Soundproofing

- **Painting:**
 - Done as needed, usually by Speaker 1.
 - Paint buckets cost ~\$100.
 - One coat: ~0.5 - 0.75 buckets.
 - Two coats: ~1.5 buckets.
 - Buckets stored: "in there" (unclear location).
- **Soundproofing Ideas:**
 - Double walls with air gaps.
 - Heavy mass for doors.
 - Fiberglass insulation.
 - Double doors for soundproof rooms.
- **Speaker:** Speaker 1
 - "\$100 a bucket and each coat is like to do one coat, it's probably like a half to three quarters of a bucket, so two coats is like a bucket and a half... I'm going like try get the hacks from like, you know, big stages like Quixote and like whatever. they have their own way of how they manage... There's also a whole soundproofing thing... You a double pin. This looks like a double pace, but I wonder if you triple it because more comes through here than through here."

17. Room Usage Concepts

- **Coworking Space:** Building to become a coworking space.
- **Flexible Room Usage:** Most rooms adaptable for coworking, workshops, photo studio, quiet space, etc.
- **Room Priorities:** To be determined, Workshop Room and Quiet Room are high priority.
- **Speaker:** Speaker 1
 - "if you turn this into coworking space, you have to get whatever the next level up is... The ideas that you actually have coworking available in almost every room."

Summary of Key Points:

- **Numerous Access Codes:** For alarm, various doors, gates, and container.
- **Keys - Some Uncertainty:** Keys exist, but organization and purpose not fully clear.
- **Generator Power Sequence:** Step-by-step instructions for stage power.
- **Wi-Fi Details Provided:** Network names, passwords, and extender information.
- **Room Concepts Discussed:** Ideas for Photo Studio, Quiet Room, Workshop Room, Coworking.
- **Maintenance Considerations:** Painting costs and soundproofing ideas mentioned.

Areas Needing Clarification:

1. **Paint Bucket Location:** "in there".
2. **Mailbox Specifics:** Clarify which mailbox and key set is relevant.
3. **"PO Side" Location:** Relative to "Stage Side" Generator Room access.
4. **Room Boundaries:** Define locations of Gear Room, Photo Studio, Quiet Room, Workshop Room precisely.
5. **"Roll the Yates outside":** Meaning and relation to code 7856.
6. **8421 Code Scope:** Confirm if it's universal for interior doors.
7. **Loading Dock Gate Details:** Lock/key situation specifics.
8. **ADT System Wires:** Repurposing potential.
9. **Door Soundproofing "Mass":** Specific material type.
